

PRESS RELEASE

TP3 Global & QProducts & Services Enter Joint Venture Agreement

Chicago, IL, September, 2016:

TP3 Global and QProducts & Services (QPS) join forces to create a unique customer service experience in the challenging world of temperature sensitive product protection. The joint venture offers unrivalled customer service and product access on a truly global basis.

QPS leads the US market with their flagship, patented **CargoQuilt®** and **PalletQuilt®** products while TP3 manufactures **SilverSkin™**, Europe's best known thermal cover and blanket brand. Available worldwide, these temperature protection products support all modes of transportation including; Over the road, Airfreight and Ocean shipments.

PALLETQUILT. CARGOQUILT.

The companies have over 30 years' combined industry-leading experience within Global Logistics, Cold Chain Design and Temperature Controlled Packaging. Both staff industry professionals that support their comprehensive product portfolio, serving the Pharmaceutical, Perishable and Chemical Industries. Products are manufactured in house, subject to strict quality control measures and use the highest grade base materials and state-of-the-art equipment, creating validated products ranging from single use pallet covers to reusable cargo quilts.

QPS and TP3 will collaborate on the development of new products and technologies to meet expanding customer needs. This collaboration will result in a wide range of value-added programs, an advanced technologies division and a world class customer experience.

PRESS RELEASE

About QProducts & Services

QProducts & Services designs, engineers and manufactures all types of products used for temperature sensitive shipments. Our product line is applicable with most forms of transportation and helps maintain a safe temperature range for any environmental condition!
