

ContainerKit®

Container Kit® provides further protection for entire container loads by insulating the top and sides of freight. Everything needed to install a ContainerKit® is included.

Available in both limited-use and heavy duty multi-trip construction, the sidewalls can be applied using Velcro straps or pre-installed magnet holders. The kit is flexible to accommodate all styles of containers. ContainerKit® captures the existing environment of your freight and assists in maintaining a safe temperature range throughout the delivery process.

Why ContainerKit®?

- Protects from both heat and cold
- Multi- or limited use
- Accommodates all styles of containers and trailers
- Applied and removed in minutes

Applications

Markets

Help your products hold their integrity.
