

PP60 SPECIFICATION

A lightweight and strong reinforced reflective foil cover for protection of temperature sensitive freight

- Qualified performance
- Global availability
- Quick and easy to fit

Multi Laminate

High Reflectivity Foil +
Reinforcement Scrim

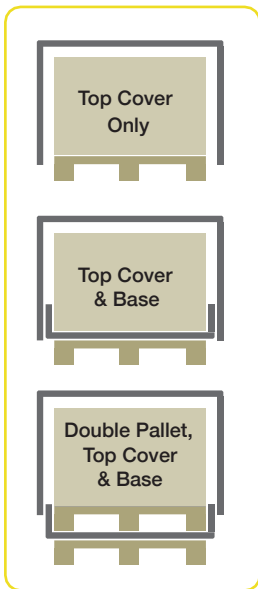

Thickness

55g/m²

Configurations

Description	A high performance single layer metalised foil laminate, reinforced for added strength
Uses	Protection of temperature sensitive goods against: <ul style="list-style-type: none"> - Direct sunlight radiation - Exposure to temperature spikes - Change of temperature through air exchange - Contamination - Tamper resistant
Size Options	Pre-Formed All main pallet footprint & heights available, please ask
Durability	Primarily single use trip / unless return logistics feasible
Thickness	0.10mm +/- 10%
Weight	55g/m ² +/- 10%
U Value	N/A for single foil layer
Waterproof	Yes
Reflectivity	To 95%

Key Features

Reduce Temperature Exchange

High Reflective Performance

Freeze Protection

Water Resistant

Security/Theft Protection
